Fall 2020

Health Partners Plans

Information from HPP About COVID-19

It remains more important than ever to stay healthy and continue doing healthy activities, like wearing a mask, social distancing and taking your medications as prescribed. By practicing healthy habits, you're doing your part in reducing stress on hospitals and urgent care centers.

If you go out, remember to wear a mask covering your mouth and nose, practice social distancing, keep your hands away from your face, and wash your hands frequently.

Health Partners Plans is committed to continuing to ensure our members have access to the quality health care that they've come to expect for more than 30 years. Here are some of the changes we've made over the past several months.

Testing is Free

We will cover the cost for COVID-19 testing for our members whose healthcare providers have ordered tests. We are also waiving any prior authorization requirements for any COVID-related testing and care requested by our members' physicians. Your doctor or local health department will screen you based on Centers for Disease Control and Prevention (CDC) guidelines and will issue a lab order for more testing, if appropriate.

Treatment

All medically necessary health care costs to treat infectious diseases, including COVID-19, will be covered based on the terms of your plan.

Cost Sharing

HPP is waiving all cost sharing for services related to testing, screening and diagnosis for COVID-19, including evaluation by a physician.

Medication Refills

HPP is providing pharmacists the opportunity to override early refill rejections on 30-day prescriptions for maintenance medications at the time of dispensing. We are encouraging 90-day supplies for certain maintenance medications. Discuss with your pharmacist if a 90-day refill for your maintenance medications will work for you.

Access to Doctors Through Telehealth and Teladoc®

Many doctors are now offering telehealth visits (over the phone or video) for routine or non-emergency health matters. Ask your doctor if a visit can be done over the phone or video.

You can also talk to a doctor at no cost to you by calling 1-800-TELADOC. Teladoc provides 24/7 access to doctors by phone or video. Teladoc's clinical team is trained on the latest protocols for local and national notification, testing and management of people who are sick with COVID-19.

If you need help getting your medications or scheduling an appointment, we can help. Call Member Relations anytime at **1-888-888-1211 (TTY 1-877-454-8477)**.

Dental Care Without Leaving Your Home

Many people are staying home during the COVID-19 pandemic, but that doesn't mean that you should put off getting seen by the dentist for tooth or mouth pain. If you have a smartphone, you can do a teledental visit and video chat with your dentist without having to leave your home.

While there isn't a way for the dentist to clean your teeth or place a filling without going into the office, there are some things that the dentist can do to diagnose and provide a solution to

your dental emergencies. Teledental visits are usually available sooner than regular visits, take less time, and are currently covered for emergencies by Health Partners Plans.

We all want to be safe during the pandemic by staying home, but we don't want to neglect our oral health needs. Call your dentist to see if they can provide a teledental visit for your urgent dental care needs.

Why Getting Vaccinated Is So Important This Year

Vaccines are safe and help stop outbreaks of dangerous diseases, like the flu. Every year, it is very important that everyone gets a flu shot to help stop the spread of infection. This year, it is even more important because of the COVID-19 pandemic.

Your KidzPartners benefits fully cover all vaccinations, including the flu and pneumonia vaccinations.

Call your doctor today to make an appointment so you can get the vaccines you need to stay healthy.

About Vaccines

- ✓ Vaccines are safe and effective.
- ✓ Vaccines protect you, your family and the people around you.
- ✓ Your doctor can tell you which vaccines you should receive.

Is It Safe To Stop Your Medications?

Stopping your child's medications on your own can be dangerous. That's why it's so important to talk with your doctor about each medication your child takes.

Here are some steps to follow when considering stopping a medication.

1. Talk to your child's doctor right away

There was a reason that your child's doctor prescribed the medication in the first place. Stopping suddenly may worsen your child's symptoms and may cause serious side effects.

Best Approach: Talk to your child's doctor about when to stop the medication when it is first prescribed.

2. Ask how long your child needs to take them

Talk to your doctor about how long your child should be taking medications. Many people continue to take medications longer than prescribed by a doctor. An example is allergy medications. Most people only need them in the spring and fall. Before your child stops, ask your doctor.

Best Approach: Bring all your child's medications to each doctor's visit. Tell your doctor how long your child has been taking them and find out if they are still needed.

3. Stop for the right reason

Does your child feel good after a few weeks on a medication? Have the symptoms decreased? Is your child having any negative side effects? These are all good reasons to talk with your child's doctor about if medication is still needed.

Best Approach: Tell your child's doctor about your concerns about how the medication makes your child feel. Ask about the plan to stop the medication under their guidance, potentially through reducing doses.

4. Learn about some of the side effects if your child stops quickly

Taking a medication may have side effects, but stopping a medication can have negative side effects, too. For example, suddenly stopping some antidepressants can cause anxiety, dizziness and fatigue. This is called "antidepressant discontinuation syndrome."

Even though medications are prescribed by a doctor, they still might cause side effects that are not pleasant.

Best Approach: Talk to your child's doctor about the side effects of medication. There may be alternate medication options available.

How to Receive Other Health Services

As a KidzPartners member, you must use our participating providers, hospitals and pharmacies for all your health care in most situations (except if you are out of the area, need emergency care or family planning services). These participating providers include PCPs and specialists and are part of the KidzPartners network. We have carefully screened these providers, specialists, hospitals and pharmacies to make sure they work together to give you the healthcare services you need.

For most services, you must call your PCP first to get a prescription or referral for the service. Your PCP will watch over all of your health care. He or she will refer you to a participating specialist or hospital if needed.

Remember, you can call your PCP at any time to follow up after a visit or hospital stay.

Your PCP is there to make sure you get the medical care you need. He or she will always be your number one supporter in getting proper treatment and staying healthy.

You can get some services without a prescription or referral from your PCP. These include:

- Chiropractic services
- Dental exams
- Emergency situations (you may want to call your PCP if you are unsure if it is an emergency)
- Family planning
- Mammograms
- OB/GYN services
- Vision exams

Keep in mind that you must use KidzPartners participating providers, specialists, hospitals and pharmacies for these services (except for emergency care or family planning services). If you don't, your services may not be covered by KidzPartners, and you may have to pay for the services.

What Are Covered Benefits and What is Excluded?

Health Partners Plans covers a number of physical health services. To see a full list of covered services, please refer to the Member Handbook available online at HPPlans.com/kphandbook. You can request a physical copy of the Member Handbook by calling Member Relations at 1-888-888-1211 (TTY 1-877-454-8477).

Some of the services have limits or copayments, or need a referral from your PCP or require prior authorization by KidzPartners. If you need services beyond the limits described in the Member Handbook, your provider can ask for an exception. Limits do not apply if you are under age 21 or pregnant.

Benefit Restrictions that Apply to Services Obtained Outside of HPP Network Services Areas

If a necessary and covered service is not available in network, KidzPartners will cover the service out of network. Ask your primary care provider to contact KidzPartners and request a prior authorization for the out-of-network services. KidzPartners will check to make sure there is not another participating provider in your area who can give you the same type of treatment. If KidzPartners cannot give you a choice of at least two participating providers in your area, KidzPartners will cover the treatment by the out-of-network provider and issue a prior authorization for the service. For more information, go to [HPPlans.com/kphandbook](https://www.hppplans.com/kphandbook) and review the section titled “Out-of-Network and Out-of-Plan Services.”

Services That Require a Copayment, Including Medications

Copays

Children are enrolled into “free,” “low-cost” or “full-cost” CHIP based on family income and related information that you provide in your application. In the low-cost and full-cost programs, some of your KidzPartners benefits require a copayment or “copay” that you pay directly to the provider each time you get services, as described below.

All members enrolled in KidzPartners:

There are no CHIP copays for preventive care services, including well-child visits and visits for immunizations, for members in any premium category.

Members enrolled in “free” KidzPartners:

There are no CHIP copays for any services for any members enrolled in the free program.

Members enrolled in “low-cost” KidzPartners pay the following CHIP copays:

- \$5 for visits to your children’s primary care physician, except for well-child visits
- \$5 for visits to specialists

- \$25 for visits to the emergency room. This copay is waived if your child is admitted.
- \$9 for brand name formulary drugs and \$6 for generics. The annual maximum you will pay for copays is five percent of your family income.

Members enrolled in “full-cost” KidzPartners pay the following CHIP copays:

- \$15 for visits to your children’s primary care physician, except for well-child visits
- \$15 for visits to any physician other than your PCP (specialist and behavioral health providers)
- \$50 for visits to the emergency room. This copay is waived if your child is admitted.
- \$18 for brand name formulary drugs and \$10 for generics

You can find a complete explanation of your benefits and services that require a copay in Chapter 5 of the Member Handbook. Visit [HPPlans.com/kphandbook](https://www.hppplans.com/kphandbook) to see all the details.

If you have any problems getting your medication from the pharmacist, please contact Member Relations at 1-888-888-1211 (TTY 1-877-454-8477).

Your Pharmacy Benefits

Current KidzPartners members can view the prescription drug formulary and see what medicines are covered, as well as any restrictions, on **HPPlans.com**.

Visit **HPPlans.com/kpformulary** to learn more, including the formulary, restrictions, prior authorizations, quantity, age limits, and more. You will also learn about generic substitution, step therapy protocols, and overall use of the pharmacy benefit.

Requesting a Formulary Exception

You can visit **HPPlans.com/formulary** to find an explanation of the prior authorization criteria and formulary limits for further information on how your doctor can provide information to support an exception request. If you would like to request a formulary exception, please call Member Relations at **1-888-888-1211 (TTY 1-877-454-8477)** or visit **HPPlans.com/Portal** to submit the request electronically.

90 Days' Supply

HPP is providing pharmacists the opportunity to override early refill rejections on 30-day prescriptions for maintenance medications at the time of dispensing. We are encouraging 90-day supplies for certain maintenance medications. Discuss with your pharmacist if a 90-day refill for your maintenance medications will work for you.

Find a Pharmacy

You can use our online Provider Directory to locate an in-network pharmacy near you. You can narrow your search by entering a zip code into the zip code box at the top of the page, but you must still use the "Go" button next to the search box to receive the appropriate results. If you need further help, call Member Relations.

Specialty Medications and Pharmacies

Specialty medications are prescription drugs that require special handling, administration or monitoring. These medications treat complex chronic conditions and are only available from a specialty pharmacy.

KidzPartners works with a network of specialty pharmacies to coordinate the delivery of specialty medications for our members.

Language Services You Can Use

Help if you speak a language other than English

If you would like to request a Member Handbook or other Health Partners information in a language other than English, at no cost, just call Member Relations at **1-888-888-1211 (TTY 1-877-454-8477)**.

Help if you need an interpreter or TTY services

If you need an interpreter for any language, including sign language, or if you require TTY services for your healthcare needs, Member Relations can help you. Just call **1-888-888-1211 (TTY 1-877-454-8477)**.

If you need an interpreter and you call Member Relations, we have an online interpreter service that can help you. This service provides over 140 languages and is available 24 hours a day, seven days a week for your healthcare needs.

You will not have to make another telephone call to get this service. Member Relations will do this for you and will stay on the telephone with you. If you call the TTY line, you will be connected to a text telephone right away.

There is no cost to you for these services.

How to Find a Primary Care Provider, Specialists and Hospitals that Participate with HPP

Your primary care provider (PCP) provides most of your health care and will help you get other services you may need from hospitals or specialists. Think of your PCP as your family doctor. He or she will keep all your medical records and know your medical history.

When you sign up for KidzPartners or if you are an existing member, you can choose or change your PCP in our network by going to hpplans.com/kp-finddoc. Our online directory provides the name, address, telephone numbers of the doctor and the office information. You can also review each provider's professional qualifications, specialty and board certification status. The directory also includes specialists and hospitals in the HPP network.

For other provider details, such as the medical school and residency that the doctor completed, call Member Relations anytime at **1-888-888-1211 (TTY 1-877-454-8477)**.

Member Relations can help you select or change your PCP, as well as help you find doctors and hospitals near you.

Making an appointment with your Primary Care Provider (PCP)

Your PCP is your medical home. He or she coordinates your care. Call your PCP to make an appointment. Many offices offer extended hours. You can also leave a message for the doctor after hours. Most offices have an on-call physician who will call you back.

Changing Your PCP

If you want to change your PCP for any reason, call Member Services at **1-888-888-1211 (TTY 1-877-454-8477)** to ask for a new PCP.

If you need help finding a new PCP, you can go to HPPlans.com, which includes a provider directory, or ask Member Services to send you a printed provider directory.

KidzPartners will send you a new ID card with the new PCP's name and phone number on it. The Member Services representative will tell you when you can start seeing your new PCP.

How to See a Specialist

Your child's primary care provider (PCP) may feel that your child has a medical concern that needs to be treated by a doctor who has special training. If so, the PCP can help you find a specialist who can best treat your child's health condition. You can also use our online directory to find a specialist. Any care your child receives from a specialist is covered. You do not need a referral to see a specialist.

How do I get a second opinion?

You may get a second opinion by asking your child's PCP to send you to another participating specialist. KidzPartners covers the cost of the visit. Before going to another specialist for a second opinion, always check with your PCP.

If you need a printed list of participating specialists, contact Member Relations at 1-888-888-1211 (TTY 1-877-454-8477).

How to Access Behavioral Health Services

KidzPartners covers medically necessary drug and alcohol and mental health services. Both inpatient and outpatient services are covered, and are coordinated by a behavioral health company called Magellan Behavioral Health of PA, which has a contract with Health Partners Plans for these services.

Your PCP can contact Magellan to arrange care for your children. You can also contact Magellan directly at 1-800-424-3701 to arrange care. When Magellan is contacted, they will request information to help assess the type of care needed by your children, and will then direct you to a participating provider. No referral is necessary. Members as young as 14 years old can self-refer.

When to Go to Your PCP, Urgent Care and Hospital

When you need care fast, it's important to know where to turn. Some cases are emergencies.

If you have an emergency, call 911 or go to the nearest emergency room. If you aren't having an emergency, going to the ER can mean a long wait. Plus, you could be making it harder for the staff there to help the people who really need them. So, what do you do when you have a sudden sickness or injury?

As a KidzPartners member, you have options. Your primary care provider (PCP) should be your first choice for health care needs. However, there are also urgent care centers and walk-in clinics available. HPP members can also talk to a doctor by phone or video chat with Teladoc. Read below to learn more about each option.

How to Obtain Care After Normal Business Hours (Walk-in Clinics and Urgent Care Centers)

Your Primary care provider (PCP) should be your first choice for your health care needs. Many of our doctors have after hours available. Call your PCP first to find out. Walk-in clinics and urgent care centers offer evening and weekend hours. They will see you without an appointment. The average wait time is 45 minutes. It's important to remember that they do different things. Urgent care centers are "one-stop shopping." They can do most lab work, take X-rays, place IVs and apply stitches. Walk-in clinics offer convenience, but offer fewer services. They are usually found in drug stores and supermarkets.

If you go to a walk-in clinic or urgent care center, remember to follow up with your PCP. Call your PCP within 48 hours or as soon as possible to arrange follow-up care.

Teladoc® (For Non-Emergencies)

Teladoc is a special service offered at no cost to HPP members. With Teladoc, you have 24/7 access to board-certified doctors. The maximum wait time for a doctor to call you back is 15 minutes. You can "visit" over the phone or by video chat on a computer, cell phone or tablet. The doctor can answer questions and even send some short-term prescriptions to your pharmacy. It's helpful if you take 10 minutes now to register so that you can get care when you need it. Call **1-800-TELADOC (835-2362)**, visit **www.teladoc.com** or download the app.

How to Obtain Care When You Are Away

If you have an emergency and you are outside the HPP service area, you should seek medical care from the nearest hospital or healthcare provider.

The hospital or provider may not be one of HPP's participating providers. This means that you might need to transfer to a participating hospital or provider. This transfer cannot take place until your condition is stable. Your PCP will discuss your condition with the doctor who is treating you. They will decide when you can be moved.

Call your PCP within 48 hours or as soon as possible to arrange follow-up care.

How to Submit a Complaint and How to Appeal a Decision

If a provider or HPP does something that you are unhappy about or do not agree with, you can tell HPP or the Department of Human Services what you are unhappy about or that you disagree with what the provider or Health Partners has done. You can submit a complaint in one of the following ways:

- Call Member Relations at **1-888-888-1211 (TTY 1-877-454-8477)** and tell Member Relations you want to file a Complaint, or
- Write down your Complaint and send it to Health Partners by mail or fax, or
- If you received a notice from Health Partners telling you Health Partners' decision and the notice included a Complaint/Grievance Request Form, fill out the form and send it to Health Partners by mail or fax.

**Health Partners Plans
Complaints, Grievances & Appeals Unit
901 Market Street, Suite 500
Philadelphia, PA 19107
215-991-4105 (fax)**

You can appeal a decision, as well. If you file a Complaint with Health Partners, and you do not like Health Partners' decision about your Complaint, you may ask for a second level Complaint review, an external Complaint review, a Fair Hearing, or an external Complaint review and a Fair Hearing depending on what your Complaint is about. You can follow the same process as detailed above.

For more information about appeals and your rights, please refer to the "Complaints, Grievances and Fair Hearings" section of the Member Handbook, which is available online at **HPPlans.com/kphandbook**. You can request a physical copy of the Member Handbook by calling Member Relations.

About Utilization Management

Utilization Management (UM) is how health plans make sure members get the right care at the right time. "More" doesn't always mean "better" when it comes to health care. UM helps prevent overtreatment. On the other hand, patients sometimes have trouble getting the care they need. That's why UM works to make sure members have access to treatment and preventive services. Health Partners never offers incentives to reduce or deny access to needed care. Utilization management decisions are based only on the appropriateness of care and existence of coverage. We do not reward doctors or other individuals for encouraging you to not seek treatment and service. HPP's medical program description, policies and provider contracts do not contain language indicating improper utilization incentive programs. Terms under which providers may be entitled to a bonus or incentive pay cannot influence their decisions to withhold, delay or deny necessary care.

You can contact our UM staff to discuss the UM process and authorization of care by calling Member Relations at **1-888-888-1211 (TTY 1-877-454-8477)**. Health Partners can also provide language interpretation services, free of charge, through bilingual staff or an interpreter.

How HPP Evaluates New Technology to Meet Your Health Care Needs

New advances in medicine can help us stay healthy. Before Health Partners Plans approves a new service or item, we want to make sure that these new advances are safe and helpful. That's why we are careful when we decide if we should cover a new service or item. Here's how we make our decision:

- 1 We receive a provider's request for a service or item.
- 2 We ask the provider to give us a letter that tells us all the details about the service or item and that also explains why the member needs the service or item.
- 3 We perform a web-based literature search to find out more details about the service or item. These details could include:
 - Whether the service or item was approved by the Food and Drug Administration;
 - If other providers have used the service or item and wrote about how it worked for them;
 - Whether the service or item is accepted as useful by other providers. If a literature search does not yield relevant information about the service or item, we contact medical experts directly to get details about the service or item.
- 4 After the details of the service or item are provided to us from either the literature search or the medical expert, one of our Medical Directors reviews the details about the service or item. After review, the Medical Director makes a decision about whether the service or item should be covered.

These steps help ensure that the service or item is both safe and helpful for you. Experimental services or procedures are not covered under KidzPartners' benefit package.

How to Submit a Claim

HPP has specific, established requirements for providers and practitioners to file a claim. All providers billing for services, whether participating or non-participating in the HPP network, must be established on the Health Partners Plans processing system with effective dates coinciding with the dates of services billed.

Non-participating provider services (except for emergency services) require prior certification by calling Health Partners Plans Inpatient Services or Outpatient Services

Participating providers must be contracted and credentialed by Health Partners Plans. For electronic claim submission Providers must bill with their individual and billing NPI numbers or their claims will be denied.

Requirements for Claims submission are available to practitioners and providers in the Provider Manual that can be found at HPPlans.com/manual.

There may be times when a Health Partners Plans member may have to pay out of pocket for medical services and/or specialty care. All eligible out of pocket expenses will be reimbursed by Health Partners Plans up to our allowable amount. This reimbursement process does not apply to co-payments. The original request for reimbursements will be submitted to Health Partners Plans via mail or fax. Members may call Member Relations at **1-888-888-1211 (TTY 1-877-454-8477)** to obtain the form and the instructions on submitting back to HPP for processing.

A request for reimbursement must be in writing. The member or guardian must submit a completed Member Reimbursement Form along with detailed receipt(s) that includes: the provider name/facility name; a description of the services provided; date of service; and proof of payment for services provided, such as a canceled check or receipt.

Your Rights and Responsibilities

As a member, you have the right to know your rights and responsibilities. These rights include getting information in a way you can understand, being treated with respect and making decisions about your health care. Exercising these rights will not negatively affect the way you are treated by HPP, its participating providers or any state agencies. When making your health care decisions, you have the right to feel that HPP is not restraining, isolating, bullying, punishing or retaliating against you. For more information, please refer to your member handbook available online at [HPPPlans.com/kphandbook](https://www.hppplans.com/kphandbook).

You can request a physical copy of the member handbook by calling Member Relations at 1-888-888-1211 (TTY 1-877-454-8477).

About Health Partners Plans

Health Partners Plans is an award-winning, not-for-profit health maintenance organization serving more than 250,000 members in Berks, Bucks, Carbon, Chester, Dauphin, Delaware, Lancaster, Lebanon, Lehigh, Montgomery, Northampton, Perry and Philadelphia counties.

We offer Medicaid, Medicare and Children's Health Insurance Program (CHIP) plans that include special benefits to improve the health and wellness of our members. We're also committed to boosting the health of our community through outreach, education and events.

We continually develop new ways to encourage better health outcomes and have received national recognition for our innovations in managed care.

Founded more than 30 years ago, Health Partners Plans is one of the few hospital-owned health maintenance organizations in the country.

Making a Positive Impact: WIC in the Real World

Thankful. That's the word Aimee from Coopersburg used to describe the 11 years her family has been enrolled in the WIC program. Aimee is the proud mother of six children, ranging from 6-months-old to 11-years-old, including a set of twins. WIC has been helping her family ever since their first child and has been a staple in their life and their family's overall health and nutrition.

As busy moms like Aimee know, life only gets busier with each child.

"Though I have six kids, each is different and it's helpful to have people who studied nutrition to help you out. At the appointments, it's especially helpful to have guidelines to help your child stay on track," said Aimee.

She's grateful WIC monitors each child individually, so they not only get nutritional information, but specific healthy foods for each child. Aimee appreciates how the nutritionists help her set goals, cook creatively, understand the impact of too much sugar and replace unhealthy options with healthy ones.

Being an experienced parent, Aimee knows her teaching is only as good as her example. With help from WIC, Aimee can confidently model healthy eating habits for her children. She knows if she doesn't eat well, her children won't either. The nutritional advice goes a long way in their household, but it's just the beginning of why Aimee is thankful.

Aimee's 6-month-old has allergies and needs a specific type of formula, which is difficult to obtain. With a doctor's note, Aimee was able to get the formula at WIC and have it shipped directly to her home. She was also glad to have WIC when her husband was discharged from the Army and the family went from living on a full-time salary to unemployment while he looked for a new job.

"We had to learn how to budget our food, but WIC made it so that we didn't need to budget certain food items," said Aimee.

Aimee recognizes WIC cares about moms like her. Since nutrition plays a vital role in overall health, WIC partners with moms to help them maintain healthy pregnancy and postpartum weights so they can feel their best both physically and emotionally. Despite her strong support system at home, Aimee is glad WIC nutritionists ask if moms are content, especially as many are dealing with postpartum depression.

"WIC helped remind me to take care of myself. If I can't take care of myself, I can't take care of others," said Aimee.

With all the ways WIC helps and cares about Aimee and her family, Aimee said more than anything, she is grateful.

"WIC is a community of people helping children grow and be healthy; we're thankful. I don't expect anything, but I'm thankful they're there because they care. It's great they're here for moms who need it," said Aimee.

What does WIC in the real world look like? Partnering with moms like Aimee and families to help them live happy and healthy lives. WIC offers professional nutritional advice, helps families save on grocery bills, accommodates special needs, and shows they care for each family all while making a positive impact.

Why Well-Child Visits Are So Important

Well-child care is essential to monitoring your children's health.

During a well-child visit, a doctor will:

- Measure your child's weight and height (head size is also monitored until age 3)
- Assess your child's physical growth and development
- Ensure developmental milestones are being met
- Assess your child's mental and emotional health
- Give vaccines or the flu vaccine in the fall
- Perform comprehensive physicals, including physicals required for sports or physical education classes

At well-child care visits, older children can voice their health concerns and ask questions. Adolescents have an opportunity to talk about their changing bodies. Parents can also share any concerns with the doctor.

Call your child's doctor to see if your appointment is still on the calendar or if you need to reschedule it.

Pediatrician Visit Schedule

Follow this schedule for your children's pediatrician visits:

The first year

- 2-3 days old
- 2 weeks old
- 2 months old
- 4 months old
- 6 months old
- 9 months old
- 12 months old

Early childhood

- 15 months old
- 18 months old
- 24 months old
- 3 years old

4+ years old

- Every year until 21 years old

Health Partners Plans

Discrimination is Against the Law

KidzPartners complies with applicable Federal civil rights laws and does not discriminate on the basis of race, color, national origin, age, disability, or sex. KidzPartners does not exclude people or treat them differently because of race, color, national origin, age, disability, or sex.

KidzPartners provides free aids and services to people with disabilities to communicate effectively with us, such as:

- Qualified sign language interpreters; and
- Written information in other formats (large print, audio, accessible electronic formats).

KidzPartners provides free language services to people whose primary language is not English, such as:

- Qualified interpreters; and
- Information written in other languages.

If you need these services, contact KidzPartners at 1-888-888-1211 (TTY 1-877-454-8477)

If you believe that KidzPartners has failed to provide these services or discriminated in another way on the basis of race, color, national origin, age, disability, or sex, you can file a grievance with:

The Bureau of Equal Opportunity,
Room 223, Health and Welfare Building,
P.O. Box 2675,
Harrisburg, PA 17105-2675,
Phone: (717) 787-1127, TTY (800) 654-5484, Fax: (717) 772-4366, or
Email: RA-PWBEOAO@pa.gov

You can file a grievance in person or by mail, fax, or email. If you need help filing a grievance, the Bureau of Equal Opportunity is available to help you.

You can also file a civil rights complaint electronically through the Office for Civil Rights Complaint Portal, available at <https://ocrportal.hhs.gov/ocr/portal/lobby.jsf>, or by mail or phone with the U.S. Department of Health and Human Services, Office for Civil Rights at:

U.S. Department of Health and Human Services,
200 Independence Avenue SW.,
Room 509F, HHH Building,
Washington, DC 20201,
1-800-368-1019, 800-537-7697 (TDD).

Complaint forms are available at <http://www.hhs.gov/ocr/office/file/index.html>.
